

GoPlay Initiative 2011

Sudduth Elementary Friendship Playground Project

OVERVIEW

Healthy schools provide a holistic approach to education ultimately empowering teachers and preparing children for life long learning.

The **Sudduth Elementary Friendship Playground Project** aims to create a playspace where children can interact with their peers regardless of ability level. This inclusive playground will allow all children of the community to explore, socialize, and learn through play.

Project timeline for 2011-12 includes existing playground clean up, funding campaign, and phase one community build. Sudduth's phase two and three playground builds will depend on future funding.

Starkville School District

Total Student Population 4,110

Average Free & Reduced Lunch 66.25%

Student Diversity	
African American	64%
Caucasian	31%
Asian	2.6%
